Subject: DOGGR

Hi Mike,

A few quick items –

- Arroyo Grande AE public comment period is extended, as the state committed at the hearing to supplement the record on a few issues. Once they post supplemental material, in the next week or two, they will set a new 15-day deadline for final comments. This probably pushes out formal submittal to EPA, assuming that occurs, into early or mid-Nov.

- DOGGR is expecting to complete their status update for the table/list of 176 wells this week and they will post that information on the web. This update should clarify the specific wells that will need to shut-in on Oct 15th. DOGGR is also preparing to send letters to the operators of those wells that need to shut-in.

- The SB855 submittal to the Legislature will go sometime before Oct 15th, probably sometime next week. Our team discussed the draft documents we've seen and we agreed it would be good for you/I to reach out to Steve on a couple of issues in the next day or two to give him a heads-up of our questions/concerns. Let me know if you are okay for me to set up a brief call today or tomorrow and I can fill you in on the issues.

Thanks,

David
